CHARLESTON.

SATURDAY MORNING, JANUARY 5, 1867.

COMMERCE OF THE PORT.

Notwithstanding the dullness that pervaded our market during nearly the whole of the first month of the quarter ending December 31, 1866 (occasioned chiefly by the sickness prevailing at that time), yet the imports and exports of this quarter compared very favorably with those of the corresponding three months of the year 1865, and exhibit such a marked improvement as to indicate the revival of our former commercial prosperity.

On a careful examination of the figures of

the last three months, as shown in our tabular statements of this morning, we find that in the foreign and coastwise exports of cotton, the increase of the fourth quarter of 1866 over the same period of the year 1865, is nearly 20,000 bales, while a comparison of the total value of exports for the same time shows an excess in favor of the fourth quarter of 1866 of over \$2,600,000.

This is certainly a source of congratulation, as it indicates that, if under the most adverse circumstances, the trade of our port exhibits such an improved condition, what we may not anticipate when capital sufficient shall be centred here to give an additional impetus to all

The following figures show the busines transactions of the last three months:

THE NEW STATE TAX.

A communication in another column, directs attention to the recent enactment by the General Assemby of South Carolina, of a Tax Lav men of every grade will doubtless move at and corporate capacities. We do not know by whom this Tax Bill was drawn, but it is clear WILLIAM B. ASTOR, JOHN JACOB ASTOR and W. ASTOR, and a great many more rich men, are in Washington. They are said to be frightened at the extremes into which the Radicals threaten to Tax Bill well can be. We know nothing of its history, but from the internal evidence, should say that it was tinkered up in the committee room to the last possible moment, and then rapidly smuggled through the several readings into the dignity of an "Act." How strange that the most important of all laws should always be thus ushered into being. The Legislature spends hours, days and weeks, discussing unimportant questions, the Tax and Appro priation Bills being left entirely to the Committee of Ways and Means. The House, to all intents and purposes, never passes on them at all. The Clerk reads them in a formal, monotonous manner, no one listening; and when committee knows what the Tax Law is; and we the time for the meeting of our General Assembly is changed. What are Tax and Appropriation Bills when set in the balance against visions of Christmas turkey and smoking plum pudding?

The Act just passed is open to objections or various grounds. In the first place, insofar as it relates to a tax for the year 1866, it is clearly an ex-post-facto law and cannot be executed. Commission merchants, auctioneers on their sales for 100,000, which he tendered in payment, with a modest request that they would pay him the balance in cash. He signed his name to the check, "C. O. Thorpe, Cashier," and when asked what bank he was cashier of, he replied, "all of in Cincinnati, Baltimore, etc., on which they in Cincinnati, Baltimore, etc., on which they two-and-a-half to five per cent, commission is now all they have to show for the transaction. And yet the State now asks these commission merchants to pay \$10 on every \$100, or from one to three hundred per cent. more than the total amount of their commissions. This i

and especially detrimental to all the inter-The burning drapery was speedily exests of our city. Whether or not all the appro-d. priations made by the Legislature were necessary, is not to the present purpose. We might have grumbled at heavy taxation, no matter how equitably the burden had been ap-The United States revenue tax on this, at 32 portioned, but we would have had no special per gallon, amounts to \$524,168, and city tax amounts to \$160,765, making a total, in the way of taxes, of \$864,923. It is probable that these figures can be exceeded by very few persons in the United is so palpable and so oppressive that it natu-We learn from a private letter from a friend (says the Wilmington Dispatch), that negroes in Edgeoombe County refuse, in many instances, to work for \$15 per month and rations, under a manager, being desirons of farming on shares, where they can do so without a manager near them. where they can do so without a manager over them. ber of Commerce and the Board of Trade And on the other hand they prefer to work for should lead the way in the matter; other cor-

porations will follow. Our correspondent suggests a general mass meeting of citizens at an early date. Perhaps that would be best. That our citizens should be sensitive to ar additional onerous tax now, when they already

pay a heavy tax to the United States, and another to the city, is hardly to be wondered at We regret that our delegation in the Legissture did not find time to examine the Act before they came down. And this, too, with a member from Charleston in the Speaker's chair. It seems they had first to be informed of its unjust enactments, by our citizens, who read the Act with great attention redress can be expected, therefore, from our legislators, will not our leading merchants take the matter in hand, and rouse the public mind

upon its first publication in Charleston. As no to a full understanding of the case. It may wit the narrow prejudices of certain up-country representatives to make Charleston pay for the entire government of the State. To tell them that such a policy is short-sighted is of uo avail. We must see to it ourselves, that no such unjust burden is laid upon our shoulders.

In old times, "when all the world went out to be taxed," it was understood that the tribute required was equitable, and duly apportioned to the means of the several individuals who were to pay it. There is no reason why it should be otherwise now. If ever there was a time when a generous State might grant an exemption from taxation to any of her citizens such discretion should have been exercised at this time in favor of our poor, charred, weatherbeaten, bombarded, and ruined city. We are struggling to recover our lost ground, and by way of helping us to accelerate our speed, our alma mater (a step-mother in this instance) loads us with this grievous burden.
